Quality Policy Statement

The objective of **TRAMANCO Pty Ltd** is to manufacture and to market products of a suitable technological level, with a consistent high quality and at a competitive price. This shall be achieved through the implementation of

AS 3901-1987/NZS 9001:1990/ISO 9001-1994, Quality System for Design/Development, Production, Installation and Servicing.

Our customers shall be guaranteed a product or service as per our detailed specification and contract by the strict implementation of this policy herein.

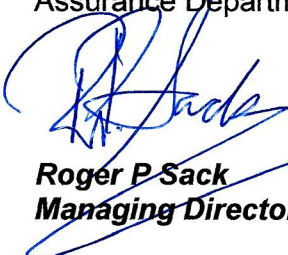

The quality and reliability of the company's products are the concern of every person in the organisation. They are not just the sole responsibility of Quality Assurance.

Everyone employed at **TRAMANCO Pty Ltd** is responsible for identifying and reporting on any and every problem which arises and to contribute to the swift and economical solutions of same.

The management has the ultimate responsibility for maintaining the Quality Policy, and shall promote all initiatives to retain and to constantly improve quality.

The foregoing broad principles are basic to this company and for the assurance of product quality.

Therefore, I also ask any and all suppliers, and sub-contractors to co-operate with the Quality Assurance Department in the implementation of this policy. Thank-you.

 14/07/2016.
Roger P Sack
Managing Director

Quality is never an accident. It is always the result of intelligent effort.
