

## ELECTRONIC SCALES

### SPECIFICATIONS

12/24VDC

Air, Hydraulics, and Load cell

One or two axle groups

### DISPLAY

Nett / Gross weights

Day / Night LCD display

Two set-points

Axle groups plus total weights

All weight on one screen

Overload warning

### BENEFITS

Improved productivity

Improved profitability

Reduced paper work

Minimise under loading

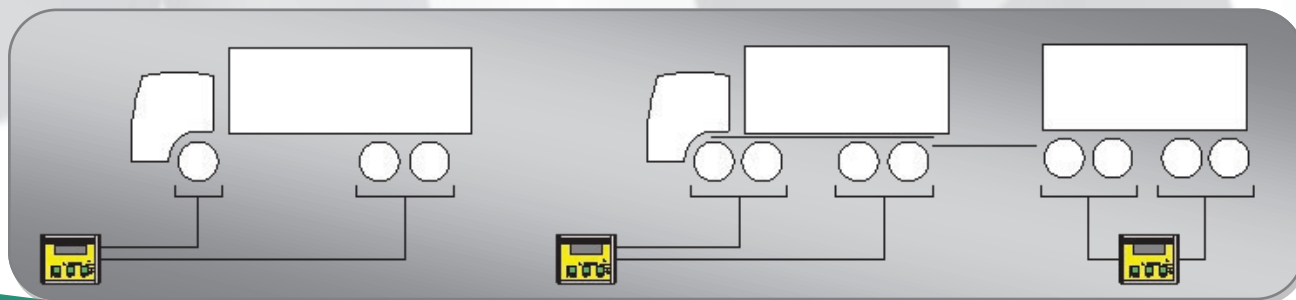

Assist with regulatory compliance

Reduce chain of responsibility exposure

The KWIK-CHEK® cab mounted display is an affordable way to obtain the weights of single or dual axle groups. KWIK-CHEK® is an economical, high performance on board electronic scale for anyone concerned about, productivity and profitability. KWIK-CHEK® lets you focus on what's important; total control of the job at hand.

KWIK-CHEK® monitors air suspensions, steer axles, hydraulics and load cell systems. Weights appear in real time and can be displayed in Nett or Gross with the push of a button.

KWIK-CHEK® is an investment in your business, providing convenience and affordability with a fast and easy way to position vehicle loads; reducing under loading and incorrect loadings.
