All measurements are to be used as a guide as slight variations may occur between all units

Quick Facts

- Two piece folding expanded mesh platform 400kg lifting capacity Illuminated platform Easy access integrated manual back-up pump and handle

- Durable hand-held control unit Dual handles to assist with standee and wheelchair users Lift-Tite system automatically secures the platform when in

- transit Durable ripple black finish Side or rear door application Electrohydraulic power up/gravity down operation Mechanically operated out-

- board barrier Equipped with adjustable anti-rattle features to suppress noise during transit Modular pump Safety yellow automatic mechanical in-board
