**Quick Facts**

- Two piece split expanded mesh platform
- 400kg lifting capacity
- Easy access integrated manual back-up pump and handle
- Durable hand-held control unit
- Dual handles to assist with standee and wheelchair users
- Lift-Tite system automatically secures the platform when in transit
- Durable ripple black finish
- Side or rear door application
- Electrohydraulic power up/gravity down operation
- Mechanically operated out-board barrier
- Equipped with adjustable anti-rattle features to suppress noise during transit
- Safety yellow automatic mechanical in-board barrier.
